ACCESSORIES

Ask your dealer about the wide range of state-of-the-art Python accessories available for use with your new Python system.

Such as:

- Garage Door Interface
- Automatic Window Automation
- Trunk Pop
- Electro-Luminescent Badge

620P

Electro-Luminescent Badge:
Extreme low current draw and high visibility blinking panel for your Python system.
Show them that you're protected by Python!

519H

Garage Door Interface:
Allows you to use your keychain transmitter to open and close your garage door from inside a building or vehicle.

Due to continuing product development, specifications subject to change without notice

Years of experience make Python your best choice in auto security. Python won't let you down when it really counts. Python's one-year Guaranteed Protection Plan is the most generous in the industry. It refunds your insurance deductible up to \$2,500 if your vehicle is stolen with Python installed and armed - whether your vehicle is recovered or not.* All Python systems are covered by a limited lifetime warranty for the original owner of the original vehicle. See your Python retailer for details and to get the best security system available.

Nationwide Service Network

Embossed into every genuine Python transmitter is a toll-free number you can call anytime, even when you travel.

The Company Behind Python Auto Security Systems

Directed Electronics, Inc., registered in the ISO 9001 quality standard, is America's Favorite Security Company, with more than 100 patents and Innovations Awards. Directed engineers are committed to offering consumers the most technologically sophisticated electronic systems available today.

TWO-WAY SYSTEMS

featuring

RESPONDER TECHNOLOGY

Responder® Systems from Python® are simply the most advanced 2-Way Security and Remote Start systems in the world.

The interactive display on the Responder remote confirms all commands - virtually instantly - with easy to understand icons plus text.

It alerts you to security system triggers by beeping or vibrating when you are out of audible range of the siren. And of course the 881XP and 581XP will start your vehicle with the push of a button, and you'll get confirmation back that it started, from up to 1/4 mile away.

Python 881XP

2-Way Security and Remote Start System

Start your car and protect its contents with 2-Way Security and Remote Start. Features include: 3 auxiliary outputs for additional remote control conveniences like trunk pop, window roll-up and more.*

Python 680XP 2-Way Security System

Protect your vehicle and its contents with 2-Way Security. Features include: 2 auxiliary outputs for additional remote control conveniences* and silent arming/disarming.

Python 581XP 2-Way Remote Start System

Start your vehicle and get confirmation back from up to 1/4 mile away. Features include: 2 auxiliary outputs for additional remote control conveniences* and built-in turbo timer

* Additional parts and labor may be required

Now Available 472P

Optional 1-way Responder companion remotes adds an additional transmitter to Responder systems. sold seperately

PYTHON REMOTE START SYSTEMS ARE INTENDED FOR FUEL-INJECTED, AUTOMATIC TRANSMISSION VEHICLES ONLY.

PYTHON

Python Remote Start systems lead the industry in range, reliability, and performance
